

Boeing Factory (Future of Flight) Tour

4 Hours Departing Seattle

From USD\$107 per person

Boeing is an integral part of our past and future, with manufacturing centers all over the Seattle area. We will travel 30 miles north to the Everett plant, featuring a hanger with the greatest cubic capacity of any building in the world. It's so lofty and long that even a 747 looks dwarfed. You'll see the assembly steps of 747s within the factory and the gleaming, graceful planes lined up next to the 9,500-ft runway at Paine Field. Boeing tour guides will take you through the plant and introduce company background with a video presentation on site.
